wonderful pictures

PC Control Software

A free PC control software can be downloaded from website. User can remotely control all settings of the device through the control software, including transition effects, audio configuration, multiview settings and media management, etc.

Transition Effects

There are WIPE(9x2 patterns), MIX and DIP transition effects available from the switcher. The transition effect works for switching via AUTO and T-Bar. User also can have transition without effect by switching via CUT.

LOGO Overlay

User can add a logo from USB flash disk into PGM. The logo's size and position can be adjusted, and the logo image can be PNG, JPG, BMP, etc. format.
